CENTRAL WEAKNESS OF RELIGION TODAY

Many are just putting together a religion that is comfortable for them and is not necessarily challenging. Somebody called it religion a la carte. That is the critical weakness of Christianity in this country today: there is not a sturdiness of belief. There is a lack of knowledge of Christianity, a lack of awareness of Christian doctrines of atonement, redemption and grace. Many Americans don't have a grasp of these things and yet 8 out of 10 say they are Christians.

You really don't find much difference between the churched and unchurched in terms of cheating, tax evasion, and pilferage, largely because there is a lot of social religion. The central problem today is that people are not solidly grounded in their faith and are therefore vulnerable.

George Gallup—Tracking America's Soul

'all types of situations are spread out before us and that it is really up to each individual to grab one of the other on the way past according to the whim of personal preference. What you take is only a matter of personal choice with one choice as valid as another.. everything is acceptable. There is no right or wrong; it is just a matter of your personal preference. His conclusion "our society now functions with no fixed ethics. What he says in regards to ethics, he applies as well to religious faith. "There is no truth; it's all a matter of personal preference.
